PROFILE

UI/UX Designer with strong expertise in Figma prototyping, component systems, and visual design, complemented by experience in graphic and motion design. Defined the visual design system for an enterprise ERP platform, later adopted across all three platform versions: mobile, desktop, and web. Led the UI/UX design of a home services booking application, from initial user flows through a complete post submission redesign. Skilled across the Adobe Creative Suite, including After Effects, Photoshop, Illustrator, and Premiere Pro, applied to motion graphics, brand identity, and marketing content.

SKILLS

UI/UX Design: Figma, Auto Layout, Component Systems, Interactive Prototyping, Smart Animate, Design Tokens, Wireframing, User Flows, Design Systems, Responsive Design, Interaction Design, Usability

Graphic & Motion Design: Adobe After Effects, Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, Motion Graphics, Brand Identity, Marketing Collateral, Social Media Design, Video Editing

PROJECTS

Ajeer Mobile, Home Services Booking Platform

Sep 2025 - Dec 2025

Graduation Project | UI/UX Design | Figma

- Designed 16+ screens in Figma, translating user flows and wireframes into a complete mobile application interface for a home services booking platform
- Led a post submission redesign of the core booking experience, adding new screens and refined interaction states using Smart Animate
- Designed Arabic and English localization with dark and light theme variants across the full application
- Also built the working mobile app, including the iOS version, as part of early coursework prior to focusing full time on UI/UX design

Figma Advanced Prototyping and Systems Work

2025 - 2026

Personal Projects | Figma

- Reconstructed the macOS desktop environment in Figma (Dock, Menu Bar, Spotlight, Control Center, Notification Center, System Settings), matching native spacing, corner radii, and behavior in both light and dark themes
- Designed and prototyped 15+ interactive components, including buttons, toggles, dropdowns, drag sliders, progress indicators, stacked cards, notification systems, and skeleton loading states
- Implemented light and dark theme switching using Tokens Studio, managing color, typography, spacing, and component states through a scalable token based system

Personal Portfolio

2025 - Present

huthaifa2.github.io | UI/UX Design, Motion Graphics

- Ongoing personal portfolio featuring UI/UX case studies, Figma prototyping work, and motion graphics, updated regularly as new projects are completed

EXPERIENCE

Graphic & Motion Designer

Apr 2026 - Jun 2026

Obsidian Labs

- Produced a motion graphics campaign for Polaris using Adobe After Effects, including environmental animation sequences, transitions, and a complete logo reveal
- Designed marketing materials, including internship announcements, holiday and seasonal graphics, and event posters, using Photoshop and Illustrator
- Managed social media content across Obsidian Labs channels and edited video content in Premiere Pro

UI & Visual Design, Polaris Mobile (ERP)

Jan 2026 - Apr 2026

Obsidian Labs

- Defined the visual design system for Polaris Mobile: color, typography, spacing, and component styling for light and dark themes, with glassmorphism, rounded corners, and layered shadow depth
- System was adopted across all 3 platform versions: mobile, desktop, and web
- Built the initial set of reusable UI components implementing this design system directly in code, as part of early technical work prior to focusing full time on UI/UX design

EDUCATION

B.Sc. Software Engineering

The Hashemite University, Zarqa, Jordan | Mar 2022 - June 2026

COURSES & CERTIFICATIONS

- Figma UI UX Design Essentials, Udemy (Daniel Walter Scott)
- Adobe After Effects CC Bootcamp: Beginner to Advanced, Udemy (Louay Zambarakji, KaiVersity)
- Adobe Illustrator CC: Essentials Training Course, Udemy (Phil Ebiner, Daniel Walter Scott)
